WMSOA POLICIES & PROCEEDURES

ARBITER Game Assignments -

The Arbiter game assignment software at www.thearbiter.com, used by WMSOA and many other officials' associations in Michigan and the USA, is for the convenience and efficiency of member officials, assignors, schools, club representatives, and players. The assignment of games by WMSOA with The Arbiter program does not constitute or replace a contract or other agreement between a school or club and an assigned official.

While WMSOA assignors will make every effort to notify officials or schools and clubs of changes as they become aware of them, it is the responsibility of the official and the school or club to confirm by written contract or other mutually recognized communication any game assignment, as well as to make each other aware of any changes in availability, venue, date, time, or other circumstances that are relevant to the contest or event assigned.

WMSOA and member assignors will not be responsible for any lost revenue, travel expense, or any other inconvenience with respect to any game assignment or any subsequent changes to it.
